

Unified Storage Server

v4.0

Quick Start Guide

Installation & Basic Configuration

Congratulations on purchasing Chelsio's Unified Storage Server (USS), a complete SAN + NAS software solution. This *Quick Start Guide* describes the steps to install and complete the basic configuration of the product.

Conventions Used

Special attention should be given to the following symbols for completing the installation successfully:

Action: Instruction to be followed to ensure proper installation of the product.

Result: Denotes the result to be expected after following an Action.

Note: Additional information provided to facilitate installation of the product or better understanding of the guide.

Step 1

Verify the Packing List of Items

Check that the following items have been included with your software:

1. One *Unified Storage Server* installation ISO image
2. One *Unified Storage Server Quick Start Guide* (this document)

The USS ISO image and related documents can also be downloaded from the [Chelsio website](#).

Missing items: If any of these items are missing or need replacement, contact Chelsio Support at: support@chelsio.com.

Step 2

Verify the System Requirements

The system used for this product must meet the following minimum system requirements:

Motherboard / Processor	PCIe Gen5 system with at least 12 cores
Memory	128 GB
Ethernet NIC	Chelsio T6/T5 adapter
Storage	Any of SAS, SATA, SSD, NVMe
OS Drive	SAS/SATA/SSD/NVMe disk of at least 250GB

Step 3

Boot from the USS ISO

The Chelsio USS ISO is a completely bootable Operating System that contains the storage software and documentation. It can be installed from the IPMI and USB.

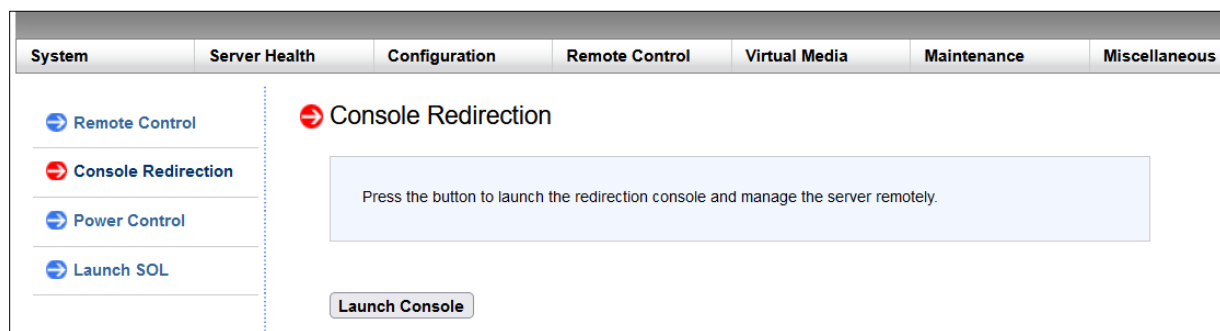

Using IPMI

Login to the IPMI of the machine and launch the **Remote Console**. Mount the downloaded USS ISO as a virtual device, reboot the machine, and boot from the virtual device.

For example, below are the steps to boot ISO using a Supermicro system.

Login to the IPMI, navigate to **Console Redirection** and click **Launch Console**.

The IPMI Console Redirection page

From the main menu of the Remote Console, navigate to **Virtual Media > Virtual Storage**.

The **Virtual Storage** dialog box appears.

Click on the **CDROM&ISO** tab. From the **Logical Drive Type** drop-down, select **ISO File**. Browse and select the ISO image file and click **Plug in** and **OK**.

Virtual Storage dialog box

Power on the system with the USS ISO drive.

After power on, press **F11** for boot menu. Select the **IPMI Virtual CDROM 3000** option to boot and proceed with the installation.

Selecting the boot option

Using USB

- On Windows Machine

Open and run the **Rufus** application.

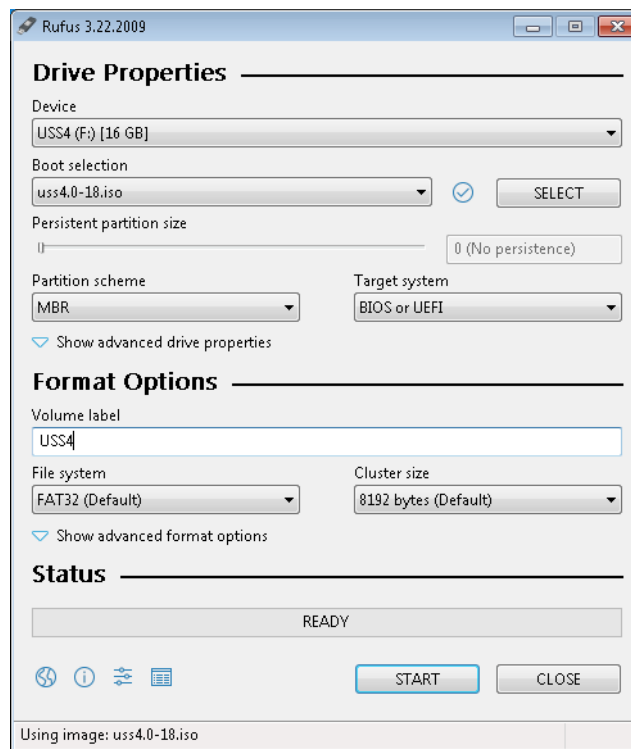

Rufus application dialog box

The **Drive Properties** dialog box appears.

Under **Device**, select **USB Drive**. Select the USS ISO from the **Boot selection** drop-down menu. Ensure that the **Volume label** is **USS4** under **Format Options**. Click **START**.

Drive properties

The **ISOHybrid** dialog box appears.

Select the **Write in DD Image mode** option and click **OK**.

Power on the system with the USS ISO drive.

After power on, press **F11** for boot menu. Select the **USB** option to boot and proceed with the installation.

- **On Linux Machine**

Verify the USB label using the following command:

```
lsblk -o NAME,LABEL
```

```
NAME      LABEL
sda
├─sda1     USB1
├─sda2
│   └─rhel-root
│       └─rhel-swap
```

Rename the USB label using the following command:

```
sudo e2label /dev/sda1 "USS4"
```

Verify the USB label using the following command:

```
lsblk -o NAME,LABEL
```

```
NAME      LABEL
sda
├─sda1     USS4
├─sda2
│   └─rhel-root
│       └─rhel-swap
```

To write an ISO file to a USB disk (assuming the USB is `sda`), use the following command:

```
sudo dd if=new_disk.iso of=/dev/sda bs=4M status=progress
```

After writing the ISO to the USB, proceed with the installation.

Step 4

Installing USS

The USS boot screen transitions to the **Chelsio Unified Storage Installer Wizard**. This wizard will walk you through the necessary steps to install the software.

Screen 1: Choose the Installation type

The first screen of the wizard will ask for the installation type. Select the **Install Unified Storage Server 4.0** option for a new installation.

USS Installation Wizard screen 1: Fresh Install

Screen 2: Select a storage device

The second screen scans and displays all the available storage devices in your system. Enter the number corresponding to the storage device where USS is to be installed.

```
Starting installer, one moment...
anaconda 34.25.4.9-1.el9_4.rocky.0.3 for Rocky Linux 9.4 started.
* installation log files are stored in /tmp during the installation
* shell is available on TTY2
* if the graphical installation interface fails to start, try again with the
  inst.text bootoption to start text installation
* when reporting a bug add logs from /tmp as separate text/plain attachments
10:38:37 Running pre-installation scripts
minimum 7 GB required
skip sdb. 0 GB is too small.

0 - sda : ST3500413AS_____ : 465 GB

Please select disk# to install or b, n
0
```

USS Installation Wizard screen 2: Select a storage device

The installation starts now and details of the process are displayed.

```

The DHCP IP address – Linux CLI prompt

To access the USS GUI on a remote machine, open a web browser, enter the DHCP IP address of the USS machine, and press **Enter**. Skip to [Step 5](#) now.

Step 5

System Setup Wizard

Complete this wizard on a remote machine through a web browser. In the welcome screen, type **uss** as the password and click **Login**.

The USS System Setup Welcome screen

The next screen lists the prerequisite for the successful completion of the wizard. Ensure that you have all the details before proceeding. Click **Begin** when ready.

System Setup wizard requirements

The first page of the wizard displays the EULA acceptance page.

Read and agree to the EULA by clicking on the **I agree and accept the above EULA** button.

Step 1 of 5: End User License Agreements

Chelsio iSCSI Target and Management software End User License Agreement:

June 1, 2006
CHELSIO END USER LICENSE AGREEMENT

IMPORTANT: PLEASE READ THIS SOFTWARE LICENSE CAREFULLY BEFORE DOWNLOADING OR OTHERWISE USING THE SOFTWARE OR ANY ASSOCIATED DOCUMENTATION OR OTHER MATERIALS (COLLECTIVELY, THE "SOFTWARE"). BY CLICKING ON THE "OK" OR "ACCEPT" BUTTON YOU AGREE TO BE BOUND BY THE TERMS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, CLICK THE "DECLINE" BUTTON TO TERMINATE THE INSTALLATION PROCESS.

1. License. Chelsio Communications, Inc. ("Chelsio") hereby grants you, the Licensee, and you hereby accept, a limited, non-exclusive, non-transferable license to install and use the Software with one or more Chelsio network adapters on a single server computer so as to function as a storage device that may be accessed by one or more other computers over a network. You may also make one copy of the Software in machine readable form solely for back-up purposes, provided you reproduce Chelsio's copyright notice and any proprietary legends included with the Software or as otherwise required by Chelsio.

2. Restrictions. This license granted hereunder does not constitute a sale of the Software or any copy thereof. Except as expressly permitted under this Agreement, you may not:
(i) reproduce, modify, adapt, translate, rent, lease, loan, resell, distribute, or create derivative works of or based upon, the Software or any part thereof; or
(ii) make available the Software, or any portion thereof, in any form, on the Internet. The Software contains trade secrets and, in order to protect them, you may not decompile, reverse engineer, disassemble, or otherwise reduce the Software to a human-perceivable form. You assume full responsibility for the use of the Software and agree to use the Software legally and responsibly.

3. Ownership of Software. As Licensee, you own only the media upon which the Software is recorded or fixed, but Chelsio retains all right, title and interest in and to the Software and all subsequent copies of the Software, regardless of the form or media in or on which the Software may be embedded.

4. Confidentiality. You agree to maintain the Software in confidence and not to disclose the Software, or any information or materials related thereto, to any third party without the express written consent of Chelsio. You further agree to take all reasonable precautions to limit access of the Software only to those of your employees who reasonably require such access to perform their employment obligations and who are bound by confidentiality agreements with you.

5. Term. This license is effective in perpetuity, unless terminated earlier. You may terminate the license at any time by destroying the Software (including the related documentation), together with all copies or modifications in any form. Chelsio may terminate this license, and this license shall be deemed to have automatically terminated, if you fail to comply with any term or condition of this Agreement. Upon any termination, including termination by you, you must destroy the Software (including the related documentation), together with all copies or modifications in any form.

6. Limited Warranty. If Chelsio furnishes the Software to you on media, Chelsio warrants only that the media upon which the Software is furnished will be free from defects in material or workmanship under normal use and service for a period of thirty (30) days from the date of delivery to you. CHELSIO DOES NOT AND CANNOT WARRANT THE PERFORMANCE OR RESULTS YOU MAY OBTAIN BY USING THE SOFTWARE OR ANY PART THEREOF. EXCEPT FOR THE FOREGOING LIMITED WARRANTY, CHELSIO MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, AND HEREBY DISCLAIMS ALL OTHER WARRANTIES, INCLUDING, BUT NOT LIMITED TO, NON-INFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow the exclusion of implied warranties or limitations on how long an implied warranty may last, so the above limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

7. Remedy for Breach of Warranty. The sole and exclusive liability of Chelsio and its distributors, and your sole and exclusive remedy, for a breach of the above warranty, shall be the replacement of any media furnished by Chelsio not meeting the above limited warranty and which is returned to Chelsio. If Chelsio or its distributor is unable to deliver replacement media which is free from defects in materials or workmanship, you may terminate this Agreement by returning the Software.

8. Limitation of Liability. IN NO EVENT SHALL CHELSIO HAVE ANY LIABILITY TO YOU OR ANY THIRD PARTY FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, HOWEVER CAUSED, AND ON ANY THEORY OF LIABILITY, ARISING OUT OF OR RELATED TO THE LICENSE OR USE OF THE SOFTWARE, INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR LOSS OF ANTICIPATED PROFITS, EVEN IF CHELSIO HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL CHELSIO'S LIABILITY ARISING OUT OF OR RELATED TO THE LICENSE OR USE OF THE SOFTWARE EXCEED THE AMOUNTS PAID BY YOU FOR THE LICENSE GRANTED HEREUNDER. THESE LIMITATIONS SHALL APPLY NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

9. High Risk Activities. The Software is not fault-tolerant and is not designed, manufactured or intended for use or resale as online equipment control equipment in hazardous environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, direct the support machines, or weapons systems, in which the failure of the Software could lead directly to death, personal injury, or severe physical or environmental damage. Chelsio specifically disclaims any express or implied warranty of fitness for any high risk use listed above.

Notes:

The Linux operating system and various additional components bundled with it, termed as a 'distributor', are licensed under the GNU General Public License version 2, or as per the respective component's licensing terms. The GNU GPL V2 is available at:
<http://www.gnu.org/licenses/old/licenses/gpl-2.0.txt>
or [it is bundled with the software](#) on this media.

Any 3rd party proprietary software that may be included, are licensed as per the vendor's license terms.

All brand names and trademarks are copyright of their respective owners.

Chelsio EULA agreement

Accepting the agreement brings up the next screen in the wizard to set the Administrator password.

Change the Administrator (root) Password

Type the administrative password for USS twice and click **Next**.

Step 2 of 5: Change Administration (root) password

New password:

Confirm password:

Setting up the administrator password

The next screen in the wizard appears to set the time and date information.
Date & Time Settings

Configure the date and time settings on this wizard page and click **Next**.

Step 3 of 5: Date & Time settings

Description	Current setting	Change Setting
Date:	13 December 2024	New Date: 13 December 2024 <input type="button" value="Edit"/>
Time:	03:31:09	New Time: 03 : 31 : 09 (hh:mm:ss) (UTC/GMT offset Code Continent/City)
Timezone:	+1200 +12	<div>Timezone<ul style="list-style-type: none">✓ +0500 PKT Asia/Karachi✓ +0530 +0530 Asia/Colombo✓ +0530 IST Asia/Kolkata✓ +0545 +0545 Asia/Kathmandu✓ +0600 +06 Asia/Bishkek✓ +0600 +06 Asia/Dhaka✓ +0600 +06 Asia/Omsk✓ +0600 +06 Asia/Thimphu</div>
Network Time synchronization:	Enabled <input type="button" value="Currently stopped"/>	NTP servers: 2.thel.pool.ntp.org <input type="button" value="Remove server"/> Add custom NTP server hostname / IP : <input type="text"/> <input type="button" value="Add"/>

Date & Time settings

The next screen in the wizard appears to set the Email alerts.

Email Alerts Configuration

Disable the **Email alerts** option and click **Next**.

By default, the **Email alerts** option is enabled.

Step 4 of 5: Email Alerts Configuration

SNMP Traps: ☐ Enable

Email alerts: ☐ Enable (Recommended)

Email Alerts Configuration

The next screen in the wizard appears to set the network parameters.

Networking configuration

Configure the network interface settings on this wizard page and click **Finish**.

Step 5 of 5: Networking configuration

System hostname:
(hostname.domainname, eg.: system.example.com)

Network Devices:
Click and highlight a device in the list, to configure it.

Devices:

eth0: 00:25:90:99:b2:4e - 1000 Mb/s

eth1: 00:25:90:99:b2:4f - Inactive

eth2: 00:07:43:3c:bc:40 - Inactive

eth3: 00:07:43:3c:bc:48 - Inactive

Configuration:

Device: **eth3: 00:07:43:3c:bc:48**

Device Description: Chelsio Communications Inc T62100-SO-CR Unified Wire Ethernet Controller

Configuration type: Statically assign

IP address:

Subnet mask:

Default Gateway:

Broadcast address:

Device activated: on System startup

DNS servers:

Server 1:

Server 2:

Server 3:

Back Finish

Networking configuration

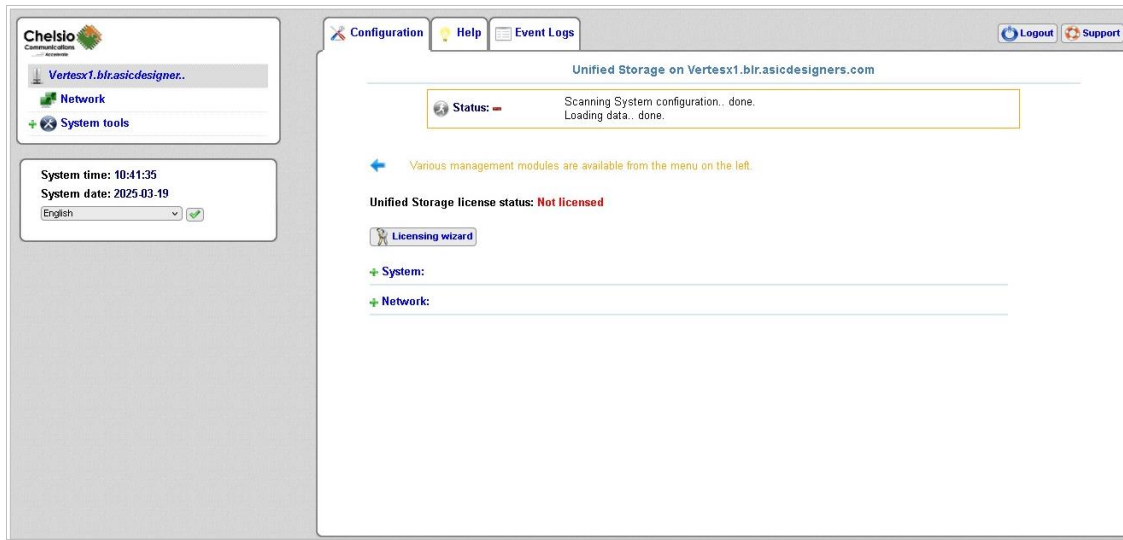

The wizard is now complete, and an interim page appears for a few moments. Then the **USS Main Management** page appears.

Step 6

Licensing USS

Complete this wizard to license the USS system through a web browser. To license USS, on the **Main Management** page, click **Licensing wizard**.

Licensing USS

The **License** page appears.

USS Licensing page

In the **Request new license** section, select the Chelsio interface and click **Next**.

Request new license - select the Network Device

eth2 - 00:07:43:3C:BC:40 ▾ [Next](#)

Selecting the Chelsio interface

The next screen in the wizard appears to download the info file.

In the **Network device selected...** section, select the **Download the hardware...** option and click **Download file** to download the information file.

Network device selected for license: **eth2 (MAC:00:07:43:3c:bc:40)**

☒ Download the hardware profile information file

[Download file](#)

Save and Request for the license by entering details at our Web based license portal (<http://service.chelsio.com/licenses>) Or email the hardware configuration file along with the product serial number, to Chelsio at support@chelsio.com or your sales representative, for obtaining the Unified Storage Server license key.

☐ Email the file to your mail account

[Back to System summary](#)

Downloading the information file

Once you have downloaded the information file, send it to [Chelsio Support](#). Chelsio generates the license file and shares it with you.

Copy the license file to the local drive on the machine.

On the **Main Management** page, click **Licensing wizard**. In the **Install a license key file**, browse and select the license file and then click **Install key**.

Install a license key file

Choose File

No file chosen

 **Install key**

Installing the license key

USS is now successfully licensed.

Step 7

Next Steps

The USS system is now ready and can be configured for SAN and NAS operations.

For support and questions, contact [Chelsio Support](#).
